

How effective is your Department...
in taking your

Incident Command policy...
“to the street”?

Attend the Incident Command Symposium:
**21st Century Incident Command Training-
Supporting Safe and Effective ICs in Your Organization**
October 25th and 26th at the Delta Meadowvale Resort and
Conference Centre, Mississauga, Ontario

Mississauga Fire and Emergency Services in conjunction with Medteq Solutions invite members of your department to attend a two day symposium covering best practices in training for incident command.

You have an Incident Command policy...now you can achieve safer and more consistent local hazard zone procedures by being in attendance to hear the following topics:

- Applying the 8 Functions of Command... “on the street”
- Fire Department Risk Management
- Commercial Tactical Templates
- Tactics for Residential Intensification
- Multi-Unit Tactical Templates
- Blue Card Command Certification program

The above topics will be presented by Alan, Nick and John Brunacini, North America’s foremost authority on Incident Command. The symposium will also include guest speakers from the City of Mississauga and local fire chiefs from the Greater Toronto Area.

By attending and implementing the incident command information you can expect to:

- Reduce risk to firefighters
- Improve incident outcomes
- Consistently apply your Incident Command policies or guidelines

Early Bird Registration Before September 29th - \$275. - After \$295.

Register now at: <http://www.regonline.ca/ICSymposium> and join other Fire Service organizations in their pursuit of improved Incident Command! Registration deadline is October 9, 2009.
